March 19, 2010

Honorable Maggie Brooks
County Executive
110 County Office Building
39 West Main Street
Rochester, New York 14614

Dear County Executive Brooks:

The Town of Gates has reviewed the RFI for the Pilot Project known as Google Fiber for Communities. This project has the potential to provide numerous opportunities for our residents. Consumers would enjoy an increase in internet speed and price along with a choice of multiple service providers.

Our business community will have greatly improved connectivity and opportunities for new applications not currently developed. Google may become a key factor in the site selection process for some businesses which would lead to more jobs and greater economic development.

The Town of Gates is excited to be able to leverage this new technology and partner with the County of Monroe and Google. We welcome this opportunity and await Google's decision.

Respectfully,

Mark W. Assini
Gates Town Supervisor

Tom Potucek
IT Director Town of Gates
